Strategic Plan 2019-2022

Mission

“Inspiring dynamic, respectful and compassionate global citizens.”

We are many communities, but we are one. An environment of intercultural understanding and integrity. A place where everyone is involved, valued and happy. A hub of innovation, enabling creativity and contemporary learning. A community where individuals succeed and make a difference.

Vision

“Excellence in everything we do”

A dynamic NAE, IB Continuum World School in South East Asia where everyone succeeds.

“Caring hearts, ambitious minds”

We believe in the active engagement of the whole community.

We believe that contemporary learning takes place when we are creative, collaborative and connected. We also believe that we have a shared humanity and we need to demonstrate compassion and ethical responsibility by enriching each other through our differences.
