

CREATE YOUR FUTURE

Welcome to the Nord Anglia family

HELLO

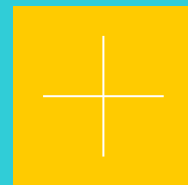

WELCOME TO NORD ANGLIA EDUCATION

We're a global family of premium international day and boarding schools, welcoming students from 2 to 18.

We have schools in more than 30 countries around the world and draw on an exceptional network of world-class educators. Our students have a learning experience like no other, providing pathways to the world's top universities and careers.

From exceptional academic results, to having the creativity, resilience, and confidence to make their mark on the world, we'll make sure your child leaves school with everything they need to succeed in whatever they want to do or be in life.

To further unlock our students' learning, we're creating a teacher-led, technology-enabled school environment that reimagines education as we know it. That's why, when coupled with our world-class teachers, we will provide your child with a learning experience like no other.

WHERE YOU'LL FIND US

We have schools across the Americas, Europe, China, Southeast Asia, India and the Middle East. At every one, you'll find the same Nord Anglia ethos, creative approach and exceptional standards. But each has its own character, unique to its community.

Visit nordangliaeducation.com to find out more about our schools.

Talk to us about your child's future at enquiries@nordangliaeducation.com

OUR PROMISE TO YOU, AS PARENTS

Dear parent

At Nord Anglia Education, we understand that the future can be uncertain – which makes it hard to know whether you're making the right choices for your child's education. In a changing world, we believe it's our responsibility to ensure your child is ready, no matter what life brings. Our **promise to you** is that when your child joins a Nord Anglia school, they'll be prepared for a **lifetime of success**, and be inspired to make a **real difference to our world**.

We'll help your child to **flourish**, to discover who they want to be and what they want to do. They'll learn to be ambitious, and to achieve more than they ever thought possible. Wherever life takes them, **your child will feel able to create their future**.

Strong **academic foundations** are at the heart of everything we do. Our students regularly **outperform their peers** from other schools in international examinations, and many go on to attend **the world's top universities**.

But we believe that **education is much more than academic achievement**. Your child needs knowledge, to think outside the box, to keep trying, and to have a positive attitude to solving problems. They need to be adaptable. **A Nord Anglia education makes sure they become confident, resilient, and creative individuals – who not only thrive in their world, but change it for the better.**

Nord Anglia Education

WHAT OUR PARENTS SAY

"Choosing BIS Abu Dhabi was definitely the right choice for my son. His teachers have gone above and beyond to make sure he achieves his goals, not just at school but with his University aspirations and beyond."

Parent, The British International School Abu Dhabi

"The first time I set foot in the Nursery... I knew this was the best environment for my young daughter. Teachers... whose caring attitudes soothed my own worries, made our decision to send our child to BISB an easy one."

Parent, The British International School Bratislava

"The caring approach they have to making students of all abilities feel worthy and welcome is what attracted us 4 years ago. My 3 children feel safe, secure and stimulated and we feel informed and confident that our children are being allowed to grow academically and personally, with their characters encouraged to grow rather than moulded."

Parent, The British International School Abu Dhabi

"The school has exceptional facilities and the level of teaching is outstanding... My son has developed to a level beyond our expectations – both academically and socially."

Parent, Nord Anglia International School Dubai

“Our family has lived in 6 countries around the world and when we get a new posting, the first question our children ask is: Is there a Nord Anglia school? They are confident that no matter which path they choose for their future, Nord Anglia will guide them. As parents, we value the personalised teaching. The students are challenged just enough outside their comfort zones and they find the teaching engaging and inspiring. Most importantly, our children are happy and they look forward to going to school every day.”

Parent, The British School of Nanjing

A LEARNING EXPERIENCE THAT'S DESIGNED FOR THE FUTURE

With our global reach and world-class teaching, we offer every student a learning experience like no other. Whichever one of our schools your child joins, their Nord Anglia education is always based on:

1

ACADEMIC EXCELLENCE

Our approach to learning is personalised to each student, and the curricula we offer are respected all over the world. We take great care over the quality of education we provide and have robust systems in place to ensure it. So our students enjoy outstanding exam results, and pathways to the universities and careers of their choice.

WORLD-CLASS TEACHERS

We invest in outstanding teachers, and offer them development programmes that are second to none. Our global education team and advisory board are led by world-renowned academics and pioneers. All of this makes sure we continue to innovate, and that our quality assurance and safeguarding measures are first class.

2

3

ADVANCED LEARNING ENVIRONMENTS

We bring your child's learning to life with both world-class technology-enabled learning and school facilities that ignite their imagination. Our learning spaces and technology are designed to give students the best education possible – one that's fit for the future.

SOCIAL PURPOSE

We know that education has the power to change the world, which is why we foster the creativity, resilience and citizenship our students need to make the world a better place.

4

5

EXCEPTIONAL LEARNING EXPERIENCES

In our schools, your child's learning goes far beyond the classroom. Our transformative programmes and experiences really nurture their talents, unlock their potential, and inspire them to go further.

VIBRANT COMMUNITY

When you join the Nord Anglia family, you become part of a global community of students, parents and alumni, opening up a world of opportunities for your child.

6

TECHNOLOGY-ENABLED LEARNING

In a rapidly-changing world, we're always working on new ways to unlock each student's learning. So we're reimagining education as we know it by creating a teacher-led, technology-enabled school environment. It's a radical approach that means we'll be able to personalise each child's learning journey like never before.

ACADEMIC EXCELLENCE

INTERNATIONALLY-RECOGNISED QUALIFICATIONS

At Nord Anglia, our schools offer internationally-recognised curricula and qualifications from the International Early Years Curriculum (IEYC), through GCSEs, to the International Baccalaureate. This means that your child has access to a global education and can go on to study anywhere in the world.

OUTSTANDING RESULTS AND PATHWAYS

Our world-class educators will help your child to achieve outstanding academic results. Nord Anglia students consistently outperform those from other schools in every international examination. It's also important to remember that our students are taking these exams in English, which is often their second or third language.

3x the global average

INTERNATIONAL BACCALAUREATE (IB) DIPLOMA

In 2020, 25% of Nord Anglia students achieved a 40+ score, three times the global average. Scores were above the global average by over 3 points, with an average pass rate often up to 10 percentage points higher than the IB global average.

50% A*–A in English

GCSE AND A LEVEL

Results in English Advanced ('A') Level and General Certificate of Secondary Education (GCSE) exams were just as impressive with over half of our students achieving A*–A grades, twice the global average for top grades.

Top **100**

UNIVERSITY

Every year our students gain places at the world's top 100 universities, including MIT, Oxbridge, Harvard and Stanford.

These results are exceptional, particularly because our schools don't select students solely on the basis of academic ability. It's our highly personalised approach to learning that helps foster ambition and achievement in every student.

WORLD-CLASS EDUCATORS

We attract and hire the world's best teachers – and support them in their development and teaching of exciting, innovative learning materials that continue to challenge and intrigue our students.

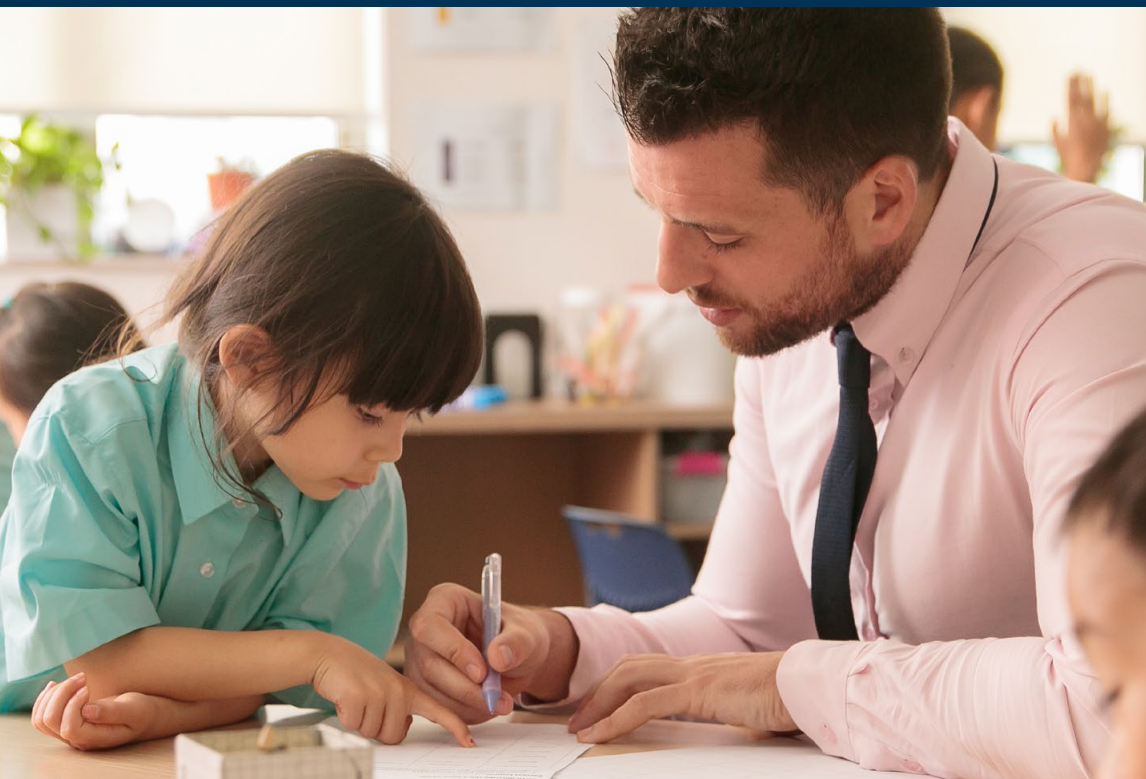

To refine their skills, our teachers carry out annual professional development, learning the latest discoveries and educational practices from subject experts. They also take classes and courses offered through our unique collaborations with MIT and The Juilliard School, so they're always ready to bring something new to the classroom.

AT THE LEADING EDGE

Great teachers want to work at Nord Anglia schools – so we're able to choose from the very best. And once they're with us, our teachers make sure they stay on top of educational thinking with the help of Nord Anglia programmes and courses that keep them at the leading edge.

Nord Anglia University is our virtual learning platform for teachers, where they can take courses, connect with peers worldwide, share rich educational learning resources and best practice from across our family of schools.

Our Executive Master's in International Education at King's College London is a programme specifically designed for teachers working in Nord Anglia schools worldwide, developing their understanding of school leadership in international education.

ONLY THE HIGHEST STANDARDS IN OUR SCHOOLS

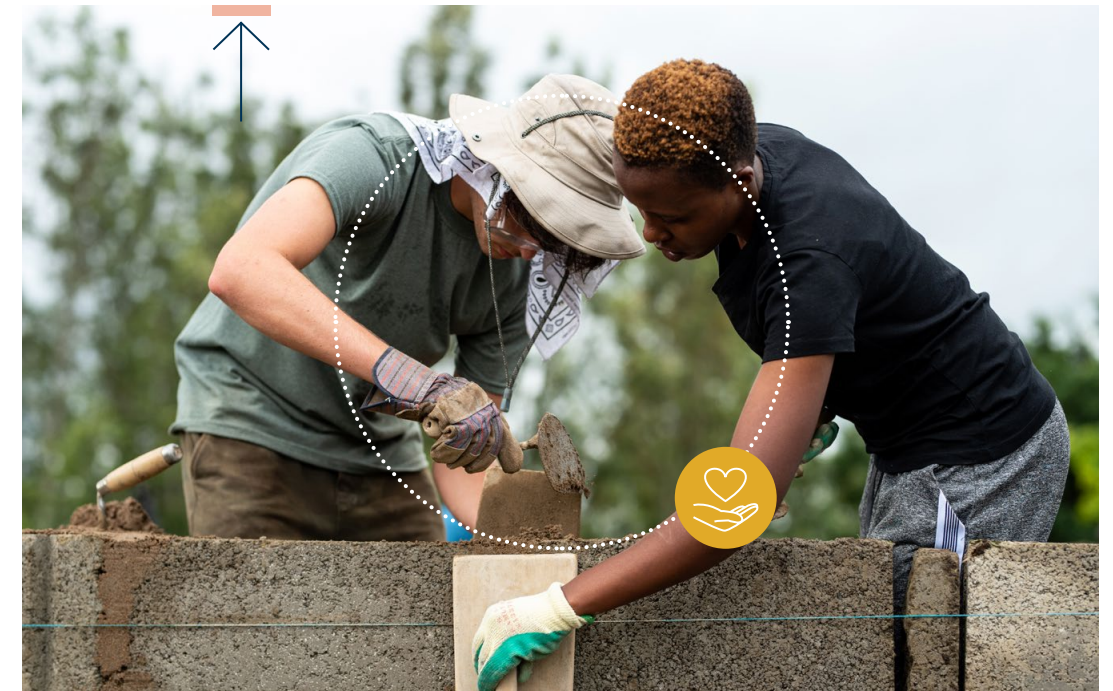

We're always looking carefully at each school's safeguarding and teaching standards to make sure our students' experience is consistently first-class. Our global and regional management teams are made up of highly experienced educators, and we review schools regularly, offering support and direction when it's needed.

Our advisory board is compiled of world-leading experts at the top of their field in education, the arts, sciences, environment and technology. Not only do they oversee and advise us on our strategic direction, they take an active role in inspiring and sharing their knowledge and experience with our teachers.

THE POWER TO CHANGE THE WORLD

Education has the power to change the world, which is why we help our students develop the creativity and resilience they need to make the world a better place.

COMMUNITY SPIRIT

It all starts in our local communities. This is where our schools work closely with local charity and NGO partners to tackle the most pressing issues facing their communities. These important experiences help our students develop resilience, teamwork and the creativity to think 'outside of the box' – important skills they'll need in the future workplace – while also understanding their role in the world around them.

We encourage our students to deliver sustainable change through local outreach activities, which teaches social responsibility through fundraising and volunteering about issues that students truly care about.

Following the UN Sustainable Development 2030 agenda, each year UNICEF and Nord Anglia invite our students to work on a Global Challenge, with themes as wide-ranging as clean energy and peace and justice, to think of innovative solutions to some of the world's biggest problems. Students from Years 10-12 can even apply to go to the Global Summit in New York, with the chance to speak at the UN's High Level Political Forum.

Unlike other schools, we make the UNICEF themes central to many of the students' activities, within and outside school time. Students regularly work on outreach programmes in local communities, and share challenges, ideas and progress via our Global Campus. You can read more about this on the next page.

unicef  **for every child**

OUR PARTNERSHIP WITH UNICEF

Our Social Impact Programme with UNICEF challenges our students to think about what they can do to make a difference – locally and globally.

OUR STUDENT ADVISORY BOARD

Encouraging citizenship starts by making sure our students' voices are heard and given the platforms to deliver positive change. That's why we've created a Student Advisory Board, where elected student leaders from NAE schools across the globe discuss and decide how we'll fund and deliver incredible social impact projects globally in our local communities. Each year they'll award up to 500,000 USD to student-led social impact initiatives globally.

EXCEPTIONAL LEARNING EXPERIENCES

At Nord Anglia Education, we inspire curiosity and innovative thinking in our students – giving them the tools and skills to succeed. Our educational approach uses our global reach, enabled by world-class technology, to bring our students truly transformational learning experiences.

GLOBAL CAMPUS

Global Campus is our digital learning platform that gives every student their own personalised experience, as well as letting them connect with thousands of their Nord Anglia classmates from around the world. With special areas for students of different ages, Global Campus provides fresh and exciting learning materials on everything from science challenges from the Massachusetts Institute of Technology (MIT) to health and wellbeing, with advice and activities on healthy eating, weekly workouts, and yoga.

“I’ve had to overcome challenges in the moment, spontaneously. I’ve learned a lot about myself and how far I can go, how much I can accomplish. It makes you feel like you should be able to do the next thing.”

Aisling, La Côte International School, Aubonne, participant in Les Martinets expedition

CURRICULA INNOVATION

To foster our students’ creativity, we collaborate with The Juilliard School to develop our music, drama, and dance programmes. Together, we have developed The Juilliard Creative Classroom, an extraordinary online collection of educational resources designed to enhance existing lessons. The programme helps students to experiment, create, improvise, and act independently – and encourages in them the resilience to keep trying.

Our collaboration with MIT gives your child the skills they’ll need to thrive in the 21st century. These include trying out approaches to real-world problems, creative thinking, and understanding the importance of persistence in finding answers. This programme also provides professional development for teachers, an annual student visit to MIT, and a collaboration with MIT scientists to develop ‘maker spaces’ for practical activities in all our schools.

Juilliard

“The biggest change I see is in the person’s character. A sense of perseverance and mental toughness.”

Hannah Smith,
Outdoor Education teacher

EXPEDITIONS THAT EXPAND HORIZONS

Our expeditions are designed to broaden our students’ perspectives and expose them to different cultures, people and ideas. Your child will have access to global, regional and local opportunities – and the chance to dig deep within themselves to find resilience and develop leadership capability. At the same time, they’ll make lifelong friendships with people from all over the world.

Each year, about 2,000 Nord Anglia students travel to our own camp in Arusha,

Tanzania, to work on the practical tasks of building and maintaining school and village accommodation. At our centre in Les Martinets, Switzerland, students undertake a week’s mountaineering and outdoor activity in self-led teams to overcome basic challenges such as cooking and navigation.

Experiences like this help to develop both self-reliance and teamwork – as well as an understanding of the lives and challenges of others.

ADVANCED LEARNING ENVIRONMENTS

We bring your child's learning to life with engaging educational technology and facilities designed to ignite their imagination. We've designed our learning spaces and technology to give students the best education possible – one that's fit for the future.

OUR SCHOOLS AND CLASSROOMS

We want the places our children learn to inspire and enable the best possible academic outcomes – so we're constantly improving our resources and classrooms. This could mean adapting them to inspire greater teamwork and collaboration between students, or creating bigger, greener campuses for more outdoor play and exploration. Our Nord Anglia development blueprint sets up our guiding principles for how we design and develop current and future schools.

ENGAGING EDUCATIONAL TECHNOLOGY, SHARED ACROSS OUR NETWORK

Our students already have a big advantage because of the quality of educational technology we offer. But on top of this, we are reimagining education with our Educational Technology Programme. Through it, we're revolutionising the way we run our classrooms, schools and organisations, so the learning environments we offer are continuously being improved.

Each of our schools offers a Virtual School Experience (VSE), so there's a smooth transition between class-based and 'home or away' learning. Our schools' VSE is a safe and secure online platform with a wealth of curated content drawing on the shared expertise of our 10,000 world-class teachers (including exclusive content in collaboration with MIT, UNICEF, and Juilliard).

PART OF THE NORD ANGLIA

FAMILY

When you choose a Nord Anglia Education school, you and your child become part of a global community of students, parents, teachers and alumni, opening up a world of opportunities. From Boston to Beijing, Hanoi to Hyderabad, and Dubai to Dublin, our diverse global community stretches across borders. We make sure that every child learns alongside students from different cultures and can make friendships that last a lifetime.

OUR CONNECTED STUDENT COMMUNITY

From school events, to global challenges and competitions where students meet their classmates from our schools around the world, being part of the Nord Anglia family means opening the door to new learning experiences and cultures for our students, their families and our teachers.

When your child joins a Nord Anglia school, you become part of the community too. All our schools' value their parent community highly, and work to make sure that parents are a key part of school life. That includes making sure parents are kept closely in touch with their child's learning and development. We stay in regular contact to make sure that your Nord Anglia experience is the best it can be.

CLOSE LINKS WITH OUR ALUMNI

Our network of alumni are ready to share their experiences to inspire NAE students that come after them. As they transition from school to university to the first years of their career, your child will be able to draw on the pathways and connections of other Nord Anglia alumni to support them in whatever they want to do in the future.

PERSONALISING YOUR CHILD'S LEARNING THROUGH THE USE OF TECHNOLOGY

In this world of rapid change, we're always looking for new ways of unlocking students' learning. That's why we've created a teacher-led, technology-enabled school environment that will allow us to personalise the learning journey like never before.

INNOVATION IS AT THE HEART OF OUR APPROACH

We have invested in technology that captures insight to help us better understand where each student is performing well, and where they may need more support. Our students can then use this to help them understand their own thinking and take control of their learning. Our teachers are starting to use this information in real time to re-evaluate what each student is doing, how they are thinking, and redirect their focus to where support is needed most.

This is Nord Anglia's way of personalising learning for every child – making sure that every student follows their best learning path – which leads to faster and more satisfying progress.

OUR TECHNOLOGY IS:

Teacher-led:

Live student performance insight means our teachers can better support students when and where they need it most, and design personalised learning pathways to help them unlock their learning, and their thinking – with relevant, personalised, and exciting learning materials that bring out the best in each child.

Classroom-based:

We want to help every child to think about their learning. This is added to our existing understanding of social learning – bringing together our students around the world with a blend of collaborative and personalised learning.

Insight-led:

Dynamic information on how every child is performing gives teachers all they need to help their students succeed. Students and their parents can also better understand where progress is being made and what challenges and barriers there are, so that they know where they are going to and how to best get there.

GET IN TOUCH

We're a global family of premium international day and boarding schools, welcoming students from 2 to 18.

We help our students develop the knowledge, creativity and resilience they need to lead successful lives, academically, socially and personally. More than this, the education we offer inspires students to want to make a difference to the world they live in. At Nord Anglia, your child will learn to create their future in whatever field they choose.

Talk to us about your child's future with Nord Anglia Education.
