Session outline

Maths in KS1

Applying skills and knowledge

How to help at home

Numicon

Maths in KS1

We use concrete materials and practical equipment to help children understand.

We are building the blocks for a solid foundation.

- we teach skills and how to apply them

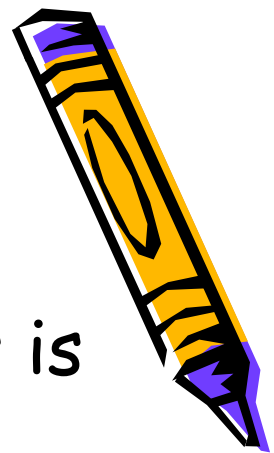

Applying Skills

One of the most important skills in maths is being able to apply what they know.

We give children opportunities to solve problems in real world contexts and apply their knowledge.

Remember; if they have the skill but can't apply it, then they may not truly understand it.

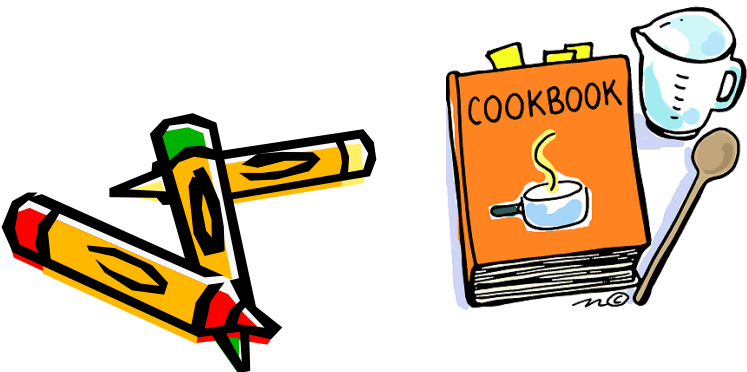

How you can help at home

Keep practising the key facts - Learn its

Point out maths in our everyday world.

Ask questions so they can apply their skills and knowledge.

ADDITION

LEARN IT!

NUMBER BONDS TO

10

$$0 + 10 = 10$$

$$1 + 9 = 10$$

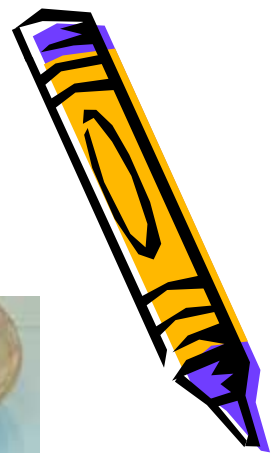

$$2 + 8 = 10$$

$$3 + 7 = 10$$

$$4 + 6 = 10$$

$$5 + 5 = 10$$
