

Are you an inspirational physics teacher looking for a new challenge in a growing and vibrant international school? The British School Yangon is looking to appoint an outstanding classroom teacher to join our team in **January 2021**. ***See update below.**

As a teacher of Physics, you will lead the planning, delivery and review of teaching this subject through the school from KS3 through to A Level. An innovative and experienced physicist, your love of subject and science more generally will inspire and encourage students to achieve great results in your classes. As part of the STEM faculty, you will enjoy collaborating with colleagues and working to foster interdisciplinary projects and approaches to learning.

As part of a busy international school, you will be happy to contribute to the wider life of the school, offering After School clubs, and enrichment activities to support curriculum delivery.

You will live and work in the beautiful city of Yangon in Myanmar, ideally situated for exploring the vibrant and diverse countries and cultures of South East Asia. Myanmar is a friendly and warm country where you will be made to feel at home from the moment you arrive.

Nord Anglia Education is the world's leading premium school organisation. We are a fast-paced and growing family of 68 international schools in China, Europe, the Middle East, South East Asia, and The Americas, providing an outstanding education to approximately 45,000 students from preschool through to the end of secondary education. Our schools are united by one philosophy – we are ambitious for our students, our people, and the family of schools. This means that we want every student to achieve more than may have ever thought possible, which we ensure through personalized learning enhanced with unique global opportunities.

When you join a Nord Anglia Education school, you join a global community of over 12,500 teachers and staff, working in 68 schools located in 29 countries around the world supporting our students' learning. Together, we educate over 64,000 students globally from the ages of 2 to 18 years old.

We offer you unsurpassed opportunities to innovate and develop best practice across our family, to access extensive professional development, and to gain exceptional experience and career development in our schools. At Nord Anglia, you will have opportunities to progress more, learn more, and collaborate more.

We offer a professional working environment and an attractive remuneration and benefits package. The initial contract is for one year and two terms, starting in January 2021. If you think this could be the post for you, we would love to hear from you.

The closing date for applications is **9th October 2020** although we reserve the right to pursue good applications as soon as they are received.

Further information can be obtained and downloaded from our web site www.nordangliaeducation.com/our-schools/myanmar/yangon/british/home or from the Job Train site.

Our school is committed to safeguarding and promoting the welfare of all the students in our care and expects all applicants to share this commitment. We follow safe recruitment practices and appointments are subject to an interview, satisfactory references, identity check and a minimum 10-year criminal record check.

***Update**

The Myanmar government has closed all schools until the impact of the pandemic can be further evaluated. BSY is currently offering all courses in all phases online. The restrictions on international travel mean that staff may not be able to get to Myanmar in the first instance, and should be prepared to teach online if necessary. Our VSE programme has access to a suite of learning platforms, for which we will provide training. Short-listed candidates will be briefed and updated as the situation develops.

We could also consider applications from candidates who can teach Physics up to KS4. We also welcome applications who would be able to make an **immediate start**, albeit via online teaching.
