University/Careers Advice & Support....36
International Certificate of Secondary Education (IGCSE)

1st Year of IGCSE Programme – Year 10

Final examination year of IGCSE Programme – Year 11

The IGCSE (International General Certificate of Education) programme is a globally recognised academic qualifications, which follow a set curriculum over 2 years, leading to summative externally accredited examinations (which students sit at the end of the course). This external qualification is essential as this ensures that the achievements of our students are recognised by every college, university and major employer around the world and we believe they give them a very strong advantage in being able to prove their academic skills and abilities.

The IGCSE programme provides the perfect foundation upon which students can progress their understanding by going on to study A-Level. In addition, the wide range of subjects students will study at IGCSE level also provide an excellent basis for them to study the International Baccalaureate (IB).

IGCSE Subjects

Our students are all required to study the following subjects:

- Mathematics

- Science (Double or Triple award, equivalent to 2 or 3 IGCSEs)

- An English Examination (most students will study English Literature and English Language, however some will complete English as an Additional Language IGCSE).

- Core PE – 1 lesson of non-examined Physical Education per week.

- Global Perspectives.

All of the remaining subjects are then divided into 4 options blocks and students are required to choose 1 from each block (selecting Triple Science counts as one of these choices). Further details on all of our IGCSE subjects can be found in this booklet.
When deciding on which subjects to study, we advise that students ask themselves the following three questions:

1. Are they good at the subject?

2. Will the subject be useful for any potential future career direction?

3. Will they enjoy studying the subject for the next 2 years?

*Please note that the courses listed in the options booklet will only run if there are adequate student numbers and the combination of subjects on offer can vary year on year.*

**Grades**

All IGCSEs are graded on a scale from A* (highest grade) down to U (ungraded) or the new IGCSE grading system of 1 to 9 (Highest). In the UK, the basic expectation for all students is that they should achieve 5 IGCSEs at grade C or above or grade 4 and above on the new grading system. However, given the nature and quality of our school, we would expect all our students to be aiming well above this and to achieve grades comparable with the best students from around the world.
ART & DESIGN

Aims

To develop a practical knowledge and understanding of:

- The use of formal elements and visual communication through a variety of approaches.
- The use of observational skills to record from sources and communicate ideas.
- Characteristics of media and materials such as wet and dry, malleable, resistant and digital.
- Properties of colour and light such as hue, tint, saturation and tone.
- The effects and creative potential of combining and manipulating different two-dimensional and three-dimensional materials and media.
- The use of digital and/or non-digital applications.

Transferable skills – students will learn to:

- apply a creative approach to problem solving.
- consider and develop original ideas from initiation to realisation.
- analyse critically their own work and the work of others.
- express individual thoughts and choices confidently.
- take risks, experiment and learn from mistakes.

Syllabus Content

Students must:

- Develop ideas through investigations, demonstrating critical understanding of sources.
- Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes.
- Record ideas, observations and insights relevant to intentions as work progresses.
- Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language.

This course allows students opportunities to:

- Explore both contemporary and historical sources of art, craft and design first hand, for example: visiting museums, galleries, art shows and fairs, experiencing audio-visual productions, including still and moving imagery, their surroundings and environments, take an individual approach to their art, craft and design making.
- Develop the skill of selecting their best and most appropriate work for presentation.

Assessment

Exam board: Edexcel GCSE

INTERNALLY MARKED BY TEACHERS & EXTERNALLY MODERATED = 60%

Component 1: Personal Portfolio

The project takes the form of complete A1 and A2 sized sheets and an investigative and experimental sketchbook. The subject theme will be set by the teacher but students will be expected to gain more independence and enquiry throughout the course. The general theme for the first project will be Natural Forms working in both 2D and 3D disciplines. Students will start a second project during the spring/summer term in year 10 that will continue into Year 11.

EXTERNALLY SET & EXTERNALLY MODERATED BY A VISITING MODERATOR = 40%

Component 2: Externally Set Assignment

Consists of one, externally set, broad based thematic starting point usually made available to teacher in the examination year. Students have a set period of preparation time to complete a sketchbook and supporting mounted work of research, investigation and experimentation followed by a 10-hour practical examination. In the practical examination students create their own original creative outcome as a result of their preparatory studies. Students will start working on the exam unit in the spring term during year 11.
**BIOLOGY**

### Aims

To develop:
- a better understanding of the technological world, with an informed interest in scientific matters.
- the ability to recognise the usefulness (and limitations) of scientific method, and how to apply this to other disciplines and in everyday life.
- relevant attitudes, such as a concern for accuracy and precision, objectivity, integrity, enquiry, initiative and inventiveness.
- an interest in, and care for, the environment.
- understanding of the influence and limitations placed on scientific study by society, economy, technology, ethics, the community and the environment.
- an understanding of the scientific skills essential for both further study and everyday life.

### Syllabus Content

The IGCSE Science Triple Award is an extension of the course concepts studied in the Double Award for Science. The extension in material is designed to promote a greater awareness of scientific theory through additional scientific investigations directed towards motivating students to be productive and contributing members of the scientific community. In IGCSE Triple Biology, students will study animal & plant anatomy and physiology, microbiology, ecology, drugs, genetics and biotechnology.

### Assessment

**Exam board:** Cambridge International Examinations (CIE)

Students who have studied the Core syllabus content, and take Paper 1 and Paper 3 are eligible for grades C to G. Students who have studied the extended syllabus content, and take Paper 2 and Paper 4 are eligible for grades A* to G.

**BUSINESS STUDIES**

### Aims

The aims of this syllabus are to enable you to:

- make effective use of relevant terminology, concepts and methods, and recognise the strengths and limitations of the ideas used in business
- apply your knowledge and critical understanding to current issues and problems in a wide range of business contexts
- distinguish between facts and opinions, and evaluate qualitative and quantitative data in order to help build arguments and make informed judgements
- appreciate the perspectives of a range of stakeholders in relation to the business environment, individuals, society, government and enterprise
- develop knowledge and understanding of the major groups and organisations within and outside of the business, and consider ways in which they are able to influence objectives, decisions and activities
- develop knowledge and understanding of how the main types of businesses are organised, financed and operated, and how their relations with other organisations, consumers, employees, owners and society are regulated
- develop skills of numeracy, literacy, enquiry, selection and use of relevant sources of information, presentation and interpretation
- develop an awareness of the nature and significance of innovation and change within the context of business activities.

### Syllabus Content

The following topics are studied:

- Understanding business activity
- People in business
- Marketing
- Operations management
- Financial information and decisions
- External influences on business activity

### Assessment

Exam board: Cambridge International Examinations (CIE)

<table>
<thead>
<tr>
<th>EXTERNALLY ASSESSED = 100%</th>

50% |
CHEMISTRY

Aims

To develop:
• a better understanding of the technological and natural world, with an informed interest in scientific matters
• relevant attitudes, such as a concern for accuracy and precision, objectivity, integrity, enquiry, initiative and inventiveness
• an interest in, and care for, the environment
• better understand the influence and limitations placed on scientific study by society, economy, technology, ethics, the community and the environment
• the ability to recognise the usefulness (and limitations) of scientific method, and how to apply this to other disciplines and in everyday life
• an understanding of the scientific skills essential for both further study and everyday life e.g. trend and pattern recognition and prediction.

Syllabus Content

The IGCSE Science Triple Award is an extension of the course concepts studied in the Double Award for Science. The extension in material is designed to promote a greater awareness of scientific theory through additional scientific investigations directed towards motivating students to be productive and contributing members of the scientific community. Students will gain three Single Award qualifications for Biology, Chemistry and Physics.

In Chemistry, students will study atomic structure and bonding and how this links to physical and chemical properties, metals, air and water, chemical industries e.g. oil and plastic production, stoichiometry, rates of reaction and equilibria.

Assessment

Exam board: Cambridge International Examinations (CIE)
Students who have studied the Core syllabus content, and take Paper 1 and Paper 3 are eligible for grades C to G. Students who have studied the extended syllabus content, and take Paper 2 and Paper 4 are eligible for grades A* to G.

| A practical assessment with a written paper consisting of two experiments and short-answer and structured questions based on the experiments and experimental skills. |
**Aims**

This course is only recommended to those candidates that have a first language competence level in Chinese.

To develop:
- the ability to communicate clearly, accurately and effectively in writing.
- the ability to use a wide range of vocabulary, correct grammar, spelling and punctuation.
- a personal style and an awareness of the audience being addressed.

**Syllabus Content**

Students are required to develop the following skills:
- to read a wide range of texts, fluently and with good understanding, enjoying and appreciating a variety of language.
- to read critically and use knowledge gained from wide reading to inform and improve their own writing.
- to write accurately and effectively using appropriate standard language.
- to work with information and ideas in Chinese by developing skills of critical evaluation, analysis, synthesis and inference
- to acquire and apply a wide vocabulary, alongside a knowledge and understanding of grammatical terminology and linguistic conventions
- to deepen understanding and appreciation of Chinese culture and classical texts.

**Assessment**

Exam board: Cambridge IGCSE

<table>

| **Paper 1:** | Reading, Directed Writing and Classical Chinese. (50%)
   2 hours 15 minutes |
|   Candidates answer all the questions in three compulsory sections. |
|   Section 1: Candidates answer a series of questions and sub-questions requiring candidates to respond to Passage 1, a fiction text. |
|   Section 2: Candidates use and evaluate the information in the two passages to create an argumentative/discursive email, letter, essay or article. |
|   Section 3: Candidates answer a series of questions about Passage 4, a previously unseen passage of Classical Chinese text. |
| **Paper 2:** | Writing: Candidates write two compositions of 400-600 words, one form each section. (50%)
   2 hours |
|   Section 1: Argumentative/Discursive Writing. |
|   Section 2: Descriptive/Narrative Writing. |
CHINESE SECOND LANGUAGE

Aims

The aims are to enable students to:
• Develop the ability to use Chinese effectively for the purpose of practical communication
• Form a sound foundation for the skills required for further study or employment using Chinese as the medium
• Develop an awareness of the nature of language and language-learning skills
• Promote learners’ personal development.

Syllabus Content

Learners will be presented with a variety of stimuli that will build up their skills in reading and writing. They will learn to select relevant details, understand the difference between what is directly stated and implied, and practice writing for different purposes and audiences. Learners will listen to a range of spoken material, including talks and conversations, in order to develop listening skills. In both written and spoken Chinese, learners will be able to respond to factual information as well as abstract ideas. Learners will engage in conversations on a variety of topics, and develop their skills in expressing their viewpoints with a degree of accuracy and clarity. Cambridge IGCSE Chinese as a Second Language will enable learners to become independent users of Chinese and to use Chinese to communicate effectively in a variety of practical contexts.

Assessment

Exam board: Cambridge IGCSE

| Paper 1: 2 hours, Reading and Writing 60%, 60 marks |
| Written examination consisting of five exercises that tests a range of reading and writing skills. Types of task include: information transfer, short-answer questions, multiple-matching, functional writing and extended writing. Externally assessed |

| Paper 2: Approx. 35–45 minutes, Listening 20%, 30 marks |
| Written examination consisting of four exercises that test listening skills. Candidates listen to recordings of short and longer spoken texts. Types of task include: short-answer questions, gap-fill sentences, information correction and multiple-choice questions. All listening material is recorded in Mandarin Chinese. Externally assessed |

| Component 3: Approx. 10–13 minutes, Speaking 20%, 60 marks |
| The Speaking test is conducted in Mandarin Chinese. The Speaking test consists of three parts: candidates give a two- to three-minute presentation, followed by a short discussion with the examiner about the presentation, followed by a short conversation with the examiner about general topics. Internally assessed and externally moderated. |
CHINESE (MANDARIN)

**Aims**

The aims are to enable students to:
- develop the ability to communicate effectively using the target language
- offer insights into the culture and society of countries where the language is spoken
- develop awareness of the nature of language and language learning
- encourage positive attitudes towards speakers of other languages and a sympathetic approach to other cultures and civilisations
- provide enjoyment and intellectual stimulation
- develop transferable skills (e.g. analysis, memorising, drawing of inferences) to complement other areas of the curriculum
- form a sound base of the skills, language and attitudes required for progression to work or further study, either in the target language or another subject area.

**Syllabus Content**

Cambridge IGCSE Mandarin Chinese encourages learners to develop lifelong skills, including:
- the ability to use a foreign language as a means of practical communication
- insight into the culture and civilisation of countries where the language is spoken
- a positive attitude towards language learning, towards the speakers of other languages, and towards other cultures and civilisations
- techniques which can be applied to other areas of learning, such as analysis and memory skills
- a sound foundation for progression to employment or further study.

**Assessment**

COMPUTER SCIENCE

**Aims**

To develop:
- understanding of the component parts of computer systems and how they interrelate
- skills necessary to apply understanding to solve computer based problems using a high level programming language
- computational thinking, that is thinking about what can be computed and how
- understanding of the main principles of problem solving using computers
- understanding that every computer system is made up of sub systems

**Syllabus Content**

Students need to develop knowledge, understanding and the capability to evaluate:
- the theory of Computer Science - data representation and transmission
- practical problem solving and programming using algorithms and a high level program language
- the use and need for different types of operating systems
- high and low level programming languages
- computer architecture and the fetch-execute cycle

DOUBLE AWARD SCIENCE

Aims

To develop:
- A better understanding of the technological world, with an informed interest in scientific matters
- Relevant attitudes, such as a concern for accuracy and precision, objectivity, integrity, enquiry, initiative and inventiveness
- An interest in, and care for, the environment
- Better understand the influence and limitations placed on scientific study by society, economy, technology, ethics, the community and the environment
- The ability to recognise the usefulness (and limitations) of scientific method, and how to apply this to other disciplines and in everyday life
- An understanding of the scientific skills essential for both further study and everyday life.

Syllabus Content

IGCSE Double Award Science is worth 2 GCSE’s. Candidates must study all three sections.

Biology;
Characteristics of living organisms, cells, enzymes, nutrition, transportation, respiration, co-operation and response, reproduction, inheritance, energy flow in ecosystems and human influences on ecosystems.

Chemistry;
The particular nature of matter, experimental techniques, atoms, elements and compounds, stoichiometry, electricity and chemistry, energy changes in chemical reactions, chemical reactions, acids, bases and salts, the periodic table, metals, air and water, sulfur, carbonates and organic chemistry.

Physics;
Motion, matter and forces, energy, work and power, simple kinetic molecular model of matter, matter and thermal properties, transfer of thermal energy, waves, light, electromagnetic spectrum, sound, magnetism, electricity, electric circuits, electromagnetic effects and radioactivity.

Assessment

Exam board: Cambridge International Examinations (CIE)
Students who have studied the Core syllabus content, and take Paper 1 and Paper 3 are eligible for grades C to G. Students who have studied the extended syllabus content, and take Paper 2 and Paper 4 are eligible for grades A* to G.

**Aims**

Students to understand and enjoy Drama by:
- developing their performance skills, both individually and in groups by understanding the role of actor, director and designer in creating a piece of theatre
- considering ways in which ideas and feelings can be communicated to an audience
- discovering the performance possibilities of plays and other dramatic stimuli
- devising dramatic material of their own

**Syllabus Content**

- Understanding repertoire
- Knowledge and understanding of the possibilities of repertoire, and how to interpret and realise it in a live performance.
- Devising dramatic material
- Reflecting on the effectiveness of devising.
- Acting skills
- Effectively communicating meaning to an audience

**Assessment**

Exam board: Cambridge International Examinations (CIE)

<table>
<thead>
<tr>
<th>EXTERNAL = 40%</th>
<th></th>
</tr>
</thead>
</table>
| **Paper 1**  
2 hours 30 minutes | The questions on this paper relate to pre-release material. The material consists of three stimuli and an extended extract from a play (or an abridged version of an entire play). Students devise a piece of drama based on one of the three stimuli and study the extract from the play. Students are required to have engaged with the pre-release material from the perspective of actor, director and designer,  
The question paper is structured as follows:  
- Section A (30 marks) 6-8 short – answer questions on the extract from the play (20 marks) and 2-4 questions on the drama devised from their chosen stimulus (10 marks)  
- Section B (25 marks) One longer-answer question from a choice of three on the extract from a play.  
- Section C (25 marks) One longer-answer question from a choice of three on the drama devised from their chosen stimulus. |

<table>
<thead>
<tr>
<th>INTERNAL = 60%</th>
<th></th>
</tr>
</thead>
</table>
| **Practical Work** | Candidates submit three pieces of practical work. All practical work is recorded in front of a live audience  
- One individual piece (3 – 5 minutes) – a performance of an extract from a play.  
- Two group* pieces (maximum 15 minutes each) – one performance of an extract from a play and one original devised piece.  
*Minimum group size – 2, maximum group size – 6 |
**ECONOMICS**

**Aims**

The aims of this syllabus are to enable you to:
- develop your knowledge and understanding of economic terminology, principles and theories
- develop your basic economic numeracy and literacy and your ability to handle simple data including graphs and diagrams
- develop your ability to use the tools of economic analysis in particular situations
- identify and discriminate between differing sources of information and how to distinguish between facts and value judgements in economic issues
- develop your ability to use economic skills (with reference to individuals, groups and organisations) to understand better the world in which you live
- develop your understanding of the economies of developed and developing nations and of the relationships between them; and to develop your appreciation of these relationships from the perspective of both developed and developing nations.

**Syllabus Content**

You will study the following topics.
- Basic economic problem: choice and the allocation of resources
- The allocation of resources: how the market works and market failure
- The individual as producer, consumer and borrower
- The private firm as producer and employer
- Role of government in economy
- Economic indicators
- Developed and developing economies: trends in production, population and living standards
- International aspects

| Candidates answer one compulsory question, which requires them to interpret and analyse previously unseen data relevant to a real economic situation, and three optional questions from a choice of six. |
| Weighted at 70% of total available marks. |
ENGLISH LANGUAGE

Aims

• Read a wide range of texts fluently and with good understanding.
• Read critically and use knowledge gained from wide reading to inform and improve their own writing.
• Write effectively and coherently using Standard English appropriately.
• Use grammar correctly, punctuate and spell accurately.
• Acquire and apply a wide vocabulary alongside knowledge and understanding of grammatical terminology, and linguistic conventions for reading, writing and spoken language.

Syllabus Content

• Develop skills to analyse how writers use linguistic and structural devices to achieve their effects.
• Explore links and connections between writers’ ideas and perspectives.
• Develop transactional writing skills for a variety of purposes and audiences.
• Develop imaginative writing skills to engage the reader.
• Use spelling, punctuation and grammar accurately.

Assessment

Exam board: Edexcel IGCSE

External: 60%:

Paper 1: 2 hrs 15 mins
Reading – a mixture of short-and long-answer questions related to nonfiction texts.

Explain
Express
ENGLISH AS A SECOND LANGUAGE (ESL)

Aims

The aims of Cambridge IGCSE English as a Second Language are to:
• develop learners’ ability to use English effectively for the purpose of practical communication
• form a solid foundation for the skills required for further study or employment using English as the medium
• develop learners’ awareness of the nature of language and language-learning skills
• promote learners’ personal development.

Syllabus Content

Reading and Writing:
• Reading short texts and answering a series of questions using skim/gist reading skills
• Reading a text and answering with greater detail
• Note taking and summary writing
• Two longer writing tasks of approximately 200 words each, in formal and informal register.

Listening:
• Listening to six short scenarios and answering questions on each
• Listening to longer texts and completing gaps in forms or charts
• Listening to longer texts and answering questions on each

Speaking (Separately endorsed and does not contribute to the overall grade):
• An assessed conversation that lasts approximately 6-9 minutes based on an oral test card

Assessment

Exam board: Cambridge International Examinations (CIE)

**EXTERNALLY SET = 70%**

| Reading & Writing 2 hours | • 70% of overall grade for syllabus 0510 Speaking Endorsement  
  • 60% of overall grade for syllabus 0511 Count-in Speaking |

**EXTERNALLY SET = 30% for oral endorsement or 15% for count-in oral**

| Listening 45 minute | • 30% of overall grade for syllabus 0510 Speaking Endorsement  
  • 20% of overall grade for syllabus 0511 Count-in Speaking |

**EXTERNALLY SET, INTERNALLY ASSESSED= 0% for oral endorsement or 15% for count-in oral**

| Speaking 15 minutes | An assessed conversation that lasts approximately 6-9 minutes based on an oral test card.  
  For oral endorsement marks for the Speaking component do not contribute to the overall grade candidates receive for the written components. Instead, where candidates perform to an appropriate standard, certificates record separately the achievements of grades 1 (high) to 5 (low) for speaking.  
  For Count-in Speaking the Speaking component contributes to 20 percent of the oral grade. |
Reading & Writing

• 60% of overall grade for syllabus 0511 Count-in Speaking

Listening
45 minute
• 30% of overall grade for syllabus 0510 Speaking Endorsement
• 20% of overall grade for syllabus 0511 Count-in Speaking

Speaking
An assessed conversation that lasts approximately 6-9 minutes based on an oral test card.
For oral endorsement marks for the Speaking component do not contribute to the overall grade candidates receive for the written components. Instead, where candidates perform to an appropriate standard, certificates record separately the achievements of grades 1 (high) to 5 (low) for speaking.
For Count-in Speaking the Speaking component contributes to 20 percent of the oral grade.
## Aims

The aims of IGCSE Geography are to encourage candidates to develop:

- An understanding of location on a local, regional and global scale
- An awareness of the characteristics, distribution and processes affecting contrasting physical and human environments
- An understanding of the ways in which people interact with each other and with their environment
- An awareness of the contrasting opportunities and constraints presented by different environments
- An appreciation of and concern for the environment
- An appreciation of the earth including its people, places, landscapes, natural processes and phenomena.

## Syllabus Content

The syllabus is divided into three themes which have been designed to develop an understanding of both the natural and the human environment:

1. **Population and settlement:** Population dynamics, population structure, population density, settlement hierarchy, urbanisation and problems associated with urban growth.
2. **The natural environment:** Earthquakes and volcanoes, rivers, coasts, weather and natural vegetation.
3. **Economic development:** Development, food production, industry, tourism, energy, water and environmental risks of economic development.

## Assessment

Exam board: Cambridge International Examinations (CIE)

<table>

</table>
| **Paper 1 Geographical Themes** | 1 hour 45 minutes  
Candidates answer three questions, each worth 25 marks. The paper has three sections and each section will be based on Themes 1, 2 or 3. Candidates must answer one question from each section.  
(75 marks, weighted to 100 marks)  
Worth 45% of the IGCSE |
| **Paper 2 Geographical Skills** | 1 hour 30 minutes  
Candidates answer all the questions. The paper is based on testing the interpretation and analysis of geographical information, decision-making and the application of graphical and other techniques as appropriate. The questions will not require specific information about places but will require the use of a 1:25 000 or 1:50 000 map with a key.  
(60 marks)  
Worth 27.5% of the IGCSE |
| **Component 3 Coursework** | Coursework  
Teachers set one Centre-based assignment of up to 2000 words  
Centre-based assessment - Field Trip to Hong Kong  
(60 marks)  
Worth 27.5% of the IGCSE |
The aims of IGCSE Global Perspectives are to encourage candidates to develop:
- students who are independent and empowered to take their place in an ever-changing, information-heavy, interconnected world.
- an analytical, evaluative grasp of global issues and their causes, effects and possible solutions.
- enquiry into and reflect on issues independently and in collaboration with others from a variety of different cultures, communities and countries.
- communication with people from a variety of backgrounds.
- independent work as well as part of a team, directing much of their own learning.
- consideration of important issues from personal, local/national and global perspectives and understand the links between them.
- critical assessment of the information available to them and make judgments.
- support of judgments with lines of reasoning.
- a sense of their own, active place in the world.
- empathy with the needs and rights of others.

The syllabus content topic covers a variety of topics including:
Belief Systems, Biodiversity and Ecosystem Loss, Climate Change, Conflict and Peace, Disease and Health, Education for All, Employment, Family and Demographic Change, Fuel and Energy, Humans and Other Species, Language and Communication, Law and Criminality, Poverty and Inequality, Sport and Recreation, Technology and the Economic Divide.

| **COURSEWORK - INTERNALLY SET AND INTERNALLY ASSESSED:** 35% |
| Group Project                    | Candidates collaborate to produce a plan and carry out a group project based on research into one topic area. The topic area must be different from the topic studied for the Individual Research. Candidates then evaluate the plan, process and outcome of the group project as well as their individual contributions to the project. Candidates report on what they have learnt from cross-cultural collaborations. |
| Total Marks = 70, Weighting = 35% |

| EXTERNALLY SET AND ASSESSED: 35% |
| Written Paper                   | **1 Hour 15 minutes** |
| The Written Paper consists of compulsory questions based on a range of sources provided with the paper. Sources will present global issues from a range of perspectives. |
| Total Marks = 70, Weighting = 35% |
**HISTORY**

### Aims

The aims of Edexcel IGCSE History are to:
- develop and extend their knowledge and understanding of key events, periods and societies in history;
- develop students as independent learners and as critical and reflective thinkers;
- develop the ability to ask relevant questions, to investigate issues critically and to make valid judgements using a range of sources in their historical context;
- develop an awareness that different people, events and developments have been accorded historical significance and how and why different interpretations have been constructed about them;
- organise and communicate their historical knowledge and understanding in different ways and reach substantiated conclusions.

### Syllabus Content

1. **Germany, 1918–45**
   - The establishment of the Weimar Republic and its early problem
   - The recovery of Germany, 1924–29
   - The rise of Hitler and the Nazis to January 1933
   - Nazi Germany 1933–39
   - Germany and the occupied territories during the Second World War

2. **A world divided: superpower relations, 1943–72**
   - Reasons for the Cold War
   - Early developments in the Cold War, 1945–49
   - The Cold War in the 1950s
   - Three crises: Berlin, Cuba and Czechoslovakia
   - The Thaw and moves towards Détente, 1963–72

3. **The USA, 1918–41**
   - The Roaring Twenties
   - Increased social tensions in the 1920s
   - The USA in Depression, 1929–33
   - Roosevelt and the New Deal, 1933–41
   - The Opposition to the New Deal

4. **Changes in medicine, c1848–c1948**
   - Progress in the mid-19th century; Nightingale, Chadwick, Snow and Simpson
   - Discovery and development, 1860–75; Lister and Pasteur
   - Accelerating change, 1875–1905; Ehrlich, Koch and chemistry
   - Government action and war, 1905–20
   - Advances in medicine, surgery and public health 1920–48

MATHEMATICS

Aims

To develop:
• a knowledge and understanding of mathematical concepts and techniques.
• a foundation in mathematical skills for further study in the subject or related areas.
• an enjoyment of using and applying mathematical techniques and concepts, and become confident in using mathematics to solve problems.
• students appreciation of the importance of mathematics in society, employment and study.

Syllabus Content

Students need to develop knowledge, understanding and the capability to evaluate within five main topic areas that are broken down into sub topics these are:
• Number
• Algebra
• Graphs
• Shape and space
• Handling data

Assessment

MODERN FOREIGN LANGUAGES

Aims

To develop:
• the ability to communicate effectively using the target language to offer insights into the culture of countries where the language is spoken.
• awareness of the nature of language and language learning.
• positive attitudes towards speakers of other languages and a sympathetic approach to other cultures and civilisations to provide enjoyment and intellectual stimulation.
• transferable skills (e.g. analysis, memorising, drawing of inferences) to complement other areas of the curriculum and to form a sound base of the skills, language and attitudes required for progression to work or further study in the target language.

Syllabus Content

The syllabus content is based around the following five broad Topic areas. Through the study of these Topic areas, students gain insight into target language countries and communities. The Topic areas are:
• Everyday Activities
• Personal and Social Life
• The World Around Us
• The World of Work
• The International World

Assessment

Exam board: Cambridge International Examinations (CIE)

EXTERNAL = 75%

| Paper 1: 45 minutes | Listening: Students listen to a number of recordings and answer questions testing comprehension. (25%) |
| Paper 2: 1 hour     | Reading: Students read a number of texts and answer questions testing comprehension. (25%) |
| Paper 4: 1 hour     | Writing: Students respond in the target language to three tasks. (25%) |

INTERNAL = 25%

| Paper 3: Approx. 15 minutes | Speaking: Students complete two role-plays, a topic presentation/conversation and a general conversation. |
MUSIC

Aims

When studying the Cambridge IGCSE Music syllabus, learners listen to, perform and compose music, encouraging aesthetic and emotional development, self-discipline and, importantly, creativity. As a result, learners enhance their appreciation and enjoyment of music, an achievement that forms an ideal foundation for future study and enhances life-long musical enjoyment.

Learners study music of all styles; each style is placed in its historical and cultural context, and they are encouraged to be perceptive, sensitive and critical when listening. Although the majority of the syllabus examines Western European music, the music of other cultures is always represented.

Syllabus Content

The IGCSE music programme of study consists of one externally examined paper and two non-examined assessments. Students will be assessed through a combination of performance, composition and written examination. Content is taken from a wide range of musical styles and traditions:

- Unprepared Western Repertoire: Instrumental and vocal music taken from Baroque, Classical, Romantic periods, and the Twentieth Century.
- World Music: Latin America.
- Set Work: Mendelssohn Italian Symphony (Movements 1 and 3).

PHYSICAL EDUCATION

Aims

To:
• Develop their knowledge and understanding of the theory underpinning physical performance in a modern world.
• Use and apply this knowledge and understanding to improve their performance
• Perform in a range of physical activities, developing skills and techniques, and selecting and using tactics, strategies and/or compositional ideas
• Understand and appreciate safe practice in physical activity and sport
• Understand and appreciate the benefit of physical activity and sport for health, fitness and well-being
• Gain a sound basis for further study in the field of Physical Education

Syllabus Content

Students will develop their theoretical knowledge and understanding of:
• Anatomy and physiology
• Health, fitness and training
• Skill acquisition and psychology
• Social, cultural and ethical influences

Practical Performance
• Students will be required to perform in four different physical activities from two different categories in the role of player/performer

PHYSICS

Aims

To develop:
• a better understanding of the technological world, with an informed interest in scientific matters.
• relevant attitudes, such as a concern for accuracy and precision, objectivity, integrity, enquiry, initiative and inventiveness.
• an interest in, and care for, the environment.
• better understand the influence and limitations placed on scientific study by society, economy, technology, ethics, the community and the environment.
• the ability to recognise the usefulness (and limitations) of scientific method, and how to apply this to other disciplines and in everyday life.
• an understanding of the scientific skills essential for both further study and everyday life.

Syllabus Content

The IGCSE Science Triple Award is an extension of the course concepts studied in the Double Award for Science. The extension in material is designed to promote a greater awareness of scientific theory through additional scientific investigations directed towards motivating students to be productive and contributing members of the scientific community.

Students will gain three Single Award qualifications for Biology, Chemistry and Physics. In physics students will study general physics, thermal physics, properties of waves, including light and sound, electricity and magnetism and atomic physics.

Assessment

Exam board: Cambridge International Examinations (CIE)

Students who have studied the Core syllabus content, and take Paper 1 and Paper 3 are eligible for grades CC to GG. Students who have studied the Extended syllabus content, and take Paper 2 and Paper 4 are eligible for grades A* to G.

PSYCHOLOGY

Aims

To develop:
- knowledge and understanding of psychology, developing an understanding of self and others, and how psychological understanding can help to explain everyday social phenomena.
- an understanding of how psychological research is conducted, including the role of scientific method and data analysis.
- arguments and draw conclusions through a critical approach to psychological evidence, developing as reflective thinkers.
- an understanding of the relationship between psychology and personal, moral, social and cultural issues, and develop an understanding of ethical issues in psychology.
- an understanding of psychological issues, the contribution of psychology to individual, social and cultural diversity, and how psychology contributes to society.

Exam board: Edexcel GCSE

Syllabus Content

Students need to develop knowledge and understanding of different topics within psychology including:

1) Development – How did you develop?
2) Memory – How does your memory work?
3) Psychological problems – How would psychological problems affect you?
4) The brain and neuropsychology – How does your brain affect you?
5) Social influence – How do others affect you?
6) Criminal psychology – Why do people become criminals?
7) Sleep and dreaming – Why do you need to sleep and dream?
8) Research methods – How do you carry out psychological research?

Assessment

EXTERNALLY SET = 55%

Paper 1
1 hour 45 minutes

This is a written examination in which all questions must be answered.

The paper consists of six sections. The first five sections each cover one of the topics (1-5 listed above). These sections will include multiple-choice, short-open and open-response questions.

The sixth section will contain two extended open-response questions. These questions will focus on debates within psychology and the interrelationships between the core areas of psychology.

EXTERNALLY SET = 45%

Paper 2
1 hour and 20 minutes

Students must answer all questions from Section A. All questions from two sections – (Criminal Psychology and Sleep and Dreaming).

Section A: Research methods – How do you carry out psychological research?

This section will focus primarily on Research methods – How do you carry out psychological research?, although it can draw on material from Topics 1 to 5 from Paper 1. It will contain question types that include calculations, multiple-choice, short-open and open-response questions, and one extended open-response question.

Sections B to F: Optional topics (you will study Criminal Psychology and Sleep and Dreaming)

Each of these sections covers one of the optional topics. These sections will include multiple-choice, short-open and open-response questions, and one extended open-response question. Calculators may be used in the examination.
WORLD LITERATURE

Aims

To develop:
• Detailed knowledge of the content of literary texts in the three main forms (Drama, Poetry and Prose).
• Understanding of the meanings of literary texts and their contexts, and explore texts beyond surface meanings to show deeper awareness of ideas and attitudes.
• Appreciation of the ways writers use language, structure and form to create and shape meanings and effects.
• Communication of a sensitive and informed personal response to literary texts.

Syllabus Content

Students will need to develop skills in analysing texts for meaning, content and specific effects created.
• Comprehension of a text in order to develop an analytical response and an empathic response which explores the relevance of the language, structure and author's intent.
• Focus on specific themes and characters within the text.
• Study of a collection of poems, prose texts and drama texts.

Assessment

Exam board: Cambridge International Examinations (CIE)

EXTERNAL = 50%

| Paper 2 Unseen (25%) 1 hour 30 minutes | Paper 2 is an unseen paper where students will answer ONE Extract based question on a choice of prose and poetry. |
| Paper 3 Set Text (25%) 1 hour 30 minutes | Paper 3 is based on the two set texts studied. Students must answer two questions: one extract and one essay based on the set texts. Students may answer both on the same text should they wish to. |

INTERNAL = 50%

| Coursework Portfolio | Students will be required to submit three assignments on different texts. One developed analytical response, which explores the relevance of language, structure and the author's intent, one empathetic piece of writing assuming the voice of a character and one recorded conversation, all focusing on a specific area/character/theme within the text. At present, the two texts studied for coursework are an anthology of poetry and a play, both from different cultures or countries. |
University & Careers Advice & Support

As well as maintaining academic excellence, one key element of our upper school provision is to provide all of our students and parents with the best possible careers and university guidance.

Please find below a list of support available to all students in Years 10-13 and their parents:

1. University Visits: Our growing success continues to attract an ever-expanding list of top global universities who are sending representatives to BSG. Each year we attract presentations from universities in the UK, North America as well as universities in Hong Kong and Australia.

2. Summer Courses: As the competition for places at top universities around the world increases, summer programmes (many held on university campuses) are becoming increasingly popular in providing students with invaluable experiences to help support their university applications. Each year we will arrange for speakers to come into school to present information on these courses.

3. SAT: For those considering applications to U.S. universities, BSG is accredited as an official SAT centre, allowing our students to sit both SAT and SAT Subject Tests.

4. Work Experience: This is also becoming an increasingly important way of adding value to university applications. As part of our Sixth Form provision, all Year 12 students are assisted in organising a work placement lasting at least one week. This support is also available to younger students.

5. University Applications: All Sixth Form students will receive 1-1 support in completing their university applications and writing their personal statements. We believe this personalised service gives all of our students the best possible chance of obtaining offers at top universities around the world.

6. 1-1 Careers Meetings: Parents and students are always welcome to make an appointment with our Careers and University Guidance Counsellor, Ms. Yanyan Wu, to discuss the different university and career pathways.
