To achieve international accredited status the school was required to:

- Meet stringent entry requirements, verified by a Preliminary or Preparatory Visit led by a CIS Accreditation Officer, to determine its readiness for the accreditation process
- Carry out an in-depth Self-Study over a one to two year period aimed at strengthening the school's programmes and operations
- Host a Visiting Team of peer evaluators from international institutions
- Demonstrate that it delivers that which it promises in its own Philosophy and Objectives
- Demonstrate that it meets the rigorous Criteria and Standards for Accreditation established by CIS
- Commit to continuing action to address recommendations arising from the internal and external evaluations (i.e. show a dedication to on-going school improvement).

Having received the award of International Accreditation, the **British International School in Ho Chi Minh City, Vietnam** joins a community of schools world-wide which are dedicated to providing a high quality education in an international context. Over 323 schools world-wide now hold accredited status with the Council of International Schools. Currently, a further 134 schools are actively seeking CIS accredited status. The number of schools seeking this status continues to grow.

CIS accreditation is recognised by the National Association of Independent Schools (USA) as a bona fide accrediting agency and by various other government and non-government agencies in a number of countries.

More details are available on the CIS website www.cois.org.

CHARACTERISTICS OF A CIS ACCREDITED SCHOOL

The award of international accreditation demonstrates:

- The school is devoted to its mission. It cares enough about what it does to seek validation by a recognised accreditation authority.
- The school knows itself. It has thought deeply about the services it offers to students, family and community.
- The school is student-orientated. Its philosophy of education is suitable for the students on roll, and encompasses the development of the whole individual.
- The school keeps its promises. It promises only what it can deliver.
- The school accepts objective assessment. It is prepared to open its doors periodically to regular evaluation by the school community and by outside experienced evaluators.
- The school is constantly seeking to improve its performance in curricular and other areas.
- The school plans for the future. As part of the on-going nature of the evaluation process, accredited schools are continually planning future developments.

Accreditation ensures that the school meets rigorous criteria and standards in the following areas:

- Philosophy and Objectives
- Curriculum
- Governance and Management
- Staf
- Student Support Services
- Resources
- Student and Community Life

Accreditation has value for all members of the school community.

CIS ACCREDITED SCHOOLS

The following schools held CIS accredited status at the time this pamphlet was printed. An up-to-date list can be found on the CIS website.
