Extracurricular Activities (ECAs) Programme
Spring/Term 2 2020-21
Our Extracurricular Activities

Welcome to the Spring Term Extracurricular Activities Programme at La Cote International School Aubonne.

Extracurricular Activities (ECAs) are an integral part of the education offered at LCIS. Our programme is designed to extend existing learning opportunities beyond the classroom to give children a range of fun and challenging experiences that enhance the core curriculum.

Our broad range of ECAs allow students from Year 1 to DP2 to explore their interests and passions whilst developing themselves academically, physically, creatively and socially. Students can choose from a variety of ECAs including competitive and non-competitive sports, arts and crafts, performing arts, technology and subject-specific clubs.

Please note, for children in Years 1 and 2, we advise a maximum of 3 clubs per week.

We have both free and paid ECAs on offer at LCIS. Where we bring in additional expertise for activities, these clubs are fee-paying, and they will be invoiced to you directly by the provider.

In addition to our ECA programme, we have our After School Care provision for those families requiring an extended school day. This is available for children from F1 to Year 6/7 ème.

We are also happy to offer the opportunity for LCIS students to complement their musical curriculum with private lessons on site. We work with a number of independent music teachers who work closely with our Director of Performing Arts to offer lessons in a range of instruments to students of all ages at LCIS.

General information on our extracurricular activities, after school care programme and private music lessons can be found in this brochure.

ECA Registration Process

Please review the activities on offer in this brochure and speak to our ECA Co-ordinator if you have any questions. Between Monday 7th December at 16:00 and Monday 14th December at 13:00 you will be able to select your child’s ECA choices on our dedicated activity booking platform, CHQ. Instructions will be sent separately on how to access this system.

Please note that each activity has a maximum and minimum number of students.

For those popular clubs, spaces are chosen randomly by CHQ. We understand that your child may not always get their first choice of activity but this is a great opportunity for your child to try something new.
