

## ISA TESTS 2016-2017

The International Schools' Assessment tests are based on the internationally endorsed reading, mathematical literacy and scientific literacy frameworks of the OECD's Programme for International Student Assessment (PISA). These tests enable La Côte International School to track individual student progress in our Primary Years 4, 5 and 6 in Mathematical Literacy, Reading and Writing. The tests allow La Côte International School to compare its performance with other similar schools and all other international schools who complete the same tests, around the world. Over 76,000 students from 355 schools across nearly 80 countries participated in ISA 2016–17.

Below are the results for this year's tests in Years 4, 5 and 6. The data shows the results from all other schools and other 'like' schools, which reflect similar numbers of English and non-English speakers.
