Student view

"I love this House because of the internationalism and the House Parents. In this House, we also do a lot of fun activities that are organised by the House Parents and the students. This House makes me feel like my home because my House Parents greet me in the morning and take care of me by helping to plan my future with me. It makes me happy every time after greeting my House Parents and all the students. I like to hang out with the students with different nationalities and happy to learn about their cultures."
