

*Educating the Heart.
Educating the Mind.*

Located in a beautiful environment,
La Côte International School is the only school
which sets out to develop academically
ambitious and creative students
who are also compassionate and emotionally
literate individuals.

LA CÔTE INTERNATIONAL SCHOOL
AUBONNE
A NORD ANGLIA EDUCATION SCHOOL

Our Story

La Côte International School (LCIS) provides an exciting and unique learning experience. Set in the La Côte region of Switzerland, our school draws on this environment for its inspiration and emphasis on healthy lifestyle. Switzerland's history is steeped in internationalism and humanitarian missions and our school takes these strong values as its own. Our teaching style encourages enquiry based learning and "learning by doing", which is well served by the International Baccalaureate, the LCIS Enrichment programme and Outdoor Classroom project. We believe in the importance of creativity and enjoy a special collaborative relationship with the Juilliard School in New York which underpins our Performing Arts programme.

Our students thrive on challenge: they are happy, confident and successful because they are encouraged to develop as individuals by our experienced and motivational staff. They are articulate and expect to contribute to the development and organisation of their school. La Côte International School thrives because it is a family school where everyone knows and supports each other.

Highest Quality Learning

At La Côte International School our team of teaching professionals provide the highest quality of engaging learning experiences based on enquiry and practical application of knowledge.

With small class sizes our teachers know each child individually and work with them to set personal objectives and targets. We believe high quality feedback is the key to students' progress. Our students develop the skills of self-evaluation and reflection, alongside knowledge acquisition, that will allow them to succeed both at school and in their future lives.

We nurture an ambitious attitude in our students where independence, curiosity and creativity are inherent learning behaviours. Our unique Enrichment programme allows your child to explore their values, interests and aptitudes that will inform the decisions they make now and beyond school.

Being part of the Nord Anglia family means that our school attracts the best teaching talent. With access to the Nord Anglia University our teachers benefit from a wide range of professional development opportunities which ensure our students benefit from contemporary educational theory and practice.

Our core value is respect

- Respect for the environment and the use of natural resources.
- Respect for each member of the school community.
- Respect in our approach to learning; that every child learns in a different way.

Our promises

- We will inspire your child to love learning, think creatively, embrace challenge and set high expectations for themselves.
- We will provide your child with the opportunities and support to discover and develop their passion and talents.
- We will provide an environment that fosters compassion, respect, confidence and perseverance.
