

# APRIL ECO-CHALLENGE

## REDUCE FOOD WASTE

To celebrate Earth day, 22<sup>nd</sup> April, the Eco-committee would like to challenge students, parents and teachers of BISB to think what they can do to reduce the food waste they produce and even try to grow some food from scratch.

Choose one or more challenges, take a photo and send it to us! Share your thoughts too!

**Challenge 1: Plant a seed and grow your own food.** Take photos of the process and the grown food and send it to us! Share your thoughts with us too!

**Challenge 2: Audit your waste at home.** Share the outcome of the audit and 1 measure you will implement to reduce food waste.

**Challenge 3: Share food with those in need.** Plan and carry out a project to help those who live in Bratislava and lack basic food. Propose the plan to your form and let us know your achievements.
