OUR APPLICATION FORM

AN INTRODUCTION

We encourage all parents wishing to apply to the school to make an appointment with our Director of Admissions. This will give you the opportunity to meet with us and discuss at length the future educational needs of your children and how we can best meet those needs. It is helpful if children can accompany their parents on this first visit.. Please consult our Director of Admissions for our Admissions Policy.

We reserve the right to exercise discretion on age entry criteria. Children joining us from another school must provide the most recent reports from their current school, and parents are requested to ensure that any special education requirements have been fully discussed before a place has been offered.

Although our school is inclusive, we must reserve the right not to admit children when we believe that we cannot meet their behavioural or educational needs.

ADMISSIONS POLICY

The British International School, Budapest is an independent coeducational day school for children aged 3 to 18 years. In keeping with our ethos as a multicultural, inclusive and caring community, we are proud to welcome students of all nationalities. As a non-selective school, we seek always to promote equal opportunity, applying our regulations on admissions fairly and without prejudice. The Admission Policy should be read in conjunction with our Application Process.

The British education system operates on the premise that students thrive best in their correct class age groups. Personalised teaching caters for individual needs and abilities; the most able children are challenged, while children needing support or more time are cared for and encouraged to make good progress. We believe that it is important for children to be with peers at a similar stage in social maturity and experience tells us that changes made early on may have negative consequences later. If a student in year 10 or above, working in a second language, does not have a level of English high enough to successfully follow the (I)GCSE or IB programmes at our school, provided there is evidence of academic ability and the student has a reasonable basic level of English, we will consider options which would allow the student time to focus on English skills and then join the appropriate programme.

CLASS ORGANISATION

The average class size is usually under 22 in Primary, and 20 in Secondary. It is possible that for very brief, limited periods, these class sizes may be exceeded as new children join a group during a school term.

In managing the composition of classes within a year group, our policy is to achieve as close a balance as possible, considering the following factors: language experience, nationality, ability and gender.

If it is felt it will be beneficial to the year group as a whole, existing class groups may be reorganised at the start of the academic year to ensure an appropriate balance. The children are given many opportunities to work and socialise with all of their peers across the year group.

In all issues of child placement the Principal's decision is final.

ENGLISH ENTRY REQUIREMENTS

The English level required is dependent on the age of the child and the course to which entry is sought.

Please consult with Director of Admissions. She will refer you to our English as an Additional Language (EAL) support team, if felt necessary.

SPECIAL EDUCATION NEEDS

Our school has a Learning Support Policy.. The acceptance of students with additional learning needs will only be confirmed by the appropriate Head of School after discussion with parents. Upon application, it is important that parents share all of the information regarding their child's learning needs, including any professional assessments. Failure to do so might risk the loss of the place once the child has joined our school if we discover that we are not equipped to best assist and support the child's development.

OUR APPLICATION FORM

STAGE 1 - INITIAL VISIT

We recognise that your first visit to the British International School, Budapest may well be just one step in your introduction to a new life in Budapest. It is often the case that parents have only a few days to find a school for their children, to choose a home and to begin the induction process in an unfamiliar place of work. With this in mind, we aim to make the choice and the transition as smooth as possible.

It is helpful if your child is able to accompany you on your initial visit, but we recognise that this is not always possible. However, it is certainly the case that the more information we have, the easier it is for us to prepare for your child's first day at school. For this reason, we request that you bring with you on your initial visit, a copy of your child's latest school reports, preferably translated into English where possible, and any other relevant details such as examination results.

During your visit, we will explain to you:

- the formal admissions procedure
- the details of our curriculum
- all payments due, stating refund and notice requirements
- whether or not there is a waiting list at your child's level (we generally place children in the correct chronological year group according to the British system).

We will provide you with a school brochure and answer any more detailed questions you may have.

You will be introduced to the Principal or the appropriate Head of School. It may also be helpful for you to meet other senior or specialist teachers, though this may not always be possible on your initial visit. The Director of Admissions will be able to guide you through the application process and advise you on class placement and choice of academic subjects. However, it must be clearly understood that such advice does not constitute part of the formal offer. Only senior academic staff can confirm such details after receipt of the formal application and following initial assessments.

A formal offer of a place will be made in writing for your child/children immediately should a place be available or alternatively when a place becomes available if there is a waiting list at your child's year level.

STAGE 2 - APPLICATION

Should you decide to apply formally for admission to the British International School, Budapest on behalf of your child, we will require:

- a completed Application Form
- a copy of your child's passport and visa
- copies of your child's latest school reports
- 2 copies of a recent passport size photograph of each applicant
- the payment of the Registration Fee.

If at this stage you have a need to discuss your application further with the Principal or the appropriate Head of School, we will be pleased to make an appointment for you. We will acknowledge your application as soon as we receive it, and, if there is a waiting list, will then contact you when a place becomes available. If you would like more information during the waiting period please contact our Director of Admissions.

STAGE 3 - ADMISSION TO THE SCHOOL

Upon entry, we assess all students in order to ascertain their level of English and to ascertain their level of achievement relative to our current students.

Although we are an inclusive school and do not impose academic entry criteria, the level of attainment at the British International School, Budapest is high and we need to be sure that your child will cope and settle happily with us. We have support staff who offer additional help where there are gaps to fill, or for younger children, where additional reading or maths support is required. We do offer English as an Additional Language (EAL) support, the details of which may be found in our EAL Policy.

Your acceptance of the offer should be made prior to your child starting school. The payment of the Registration Fee constitutes your acceptance of a place.

If you have any further queries or concerns, please do not hesitate to draw them to our attention.

We look forward to seeing you at the British International School, Budapest and to welcoming you and your family to our special community.

A GLOBAL EDUCATION

Education and learning has always been our focus and our area of expertise. Our people and the people we work with all have a good understanding of what this means to us. We aim to provide students with the opportunity to be the best they can be.
