

## LA CÔTE INTERNATIONAL SCHOOL

### ISA TESTS 2014-2017

The International Schools' Assessment tests are based on the internationally endorsed reading, mathematical literacy and scientific literacy frameworks of the OECD's Programme for International Student Assessment (PISA). These tests enable La Côte International School to track individual student progress in our Primary Years 4, 5 and 6 in Mathematical Literacy, Reading and Writing. The tests allow La Côte International School to compare its performance with other similar schools and all other international schools who complete the same tests, around the world. Over 76,000 students from 355 schools across nearly 80 countries participated in ISA 2016-17.

Analysing the data collected from the Year 4, Year 5 and Year 6 groups, we can see significant year-on-year increases in performance in each area, from the year each cohort first participated in the ISA tests.
