

RESULTS SECONDARY MYP3

The International Schools' Assessment tests are based on the internationally endorsed reading, mathematics literacy and scientific frameworks of the OECD's Programme for International Student Assessment (PISA).

The tests allow La Côte International School to compare its performance with other similar schools and all other international schools who complete the same tests, around the world. Over 76,000 students from 355 schools across nearly 80 countries participated in ISA 2016-17.
