Programming

**Ages 3-7 (Pre-K – Grade 1)**
Explore the world and make new discoveries! Each week we will take part in hands-on learning activities that cover topics in the school curriculum, from performing arts to math and science. There will be a talent show, acting workshops, Popstar boot camp, and much more.

**Ages 7-11 (Grades 2 – 5)**
Develop your independent and international learning! We will dive into a variety of topics in the school curriculum, like science, history, computing and athletics. There is an exciting learning theme each week (like pirates!) and every day features related learning time, social time and student-led assignments.

All children should bring a packed lunch and snacks.

Why choose us?
We designed our camps with careful consideration of the children and curriculum. On top of thoughtful learning, the children will benefit from unique, hands-on activities that bring out their strengths and lots of FUN!
